Summary - Unit 1 Test (Aug 2026)

Quiz Period Not Started Description

This test covers content from course selections:

- Lesson 1.1 Introduction to Quadratic Methods
- Lesson 1.2 Factoring Quadratics - Greatest Common Factor
- Lesson 1.3 Factoring Quadratics - Perfect Squared Terms
- Lesson 1.4 Factoring quadratics - factoring trinomials
- Lesson 1.6 Solve Quadratics by Factoring
- Lesson 1.7 Solve Quadratics by Quadratic Formula

Do not start the test until you are ready, as you only get one attempt. Once you begin, you will have **120 minutes** to complete the task. This evaluation has a mixture True/False, Fill in the Blank **AND** Written Response questions. You will need to upload solutions when prompted in the question. You are ready to start the test when you have done the following:

1. Sit in a quiet place where you can focus.
2. Have a pencil, paper, and calculator ready before you begin.
3. Put away any distractions (phone on silent, away from you, but within reach).
4. Have device ready to upload a photo showing all rough work.
